

TACTUS

WATER LEVEL REGULATOR

Automatic water level controller, composed of an electronic unit and five level sensors.
Suitable for all types of pools: infinity edge, mirror pools, and skimmers.

- › Electronic detector for non-return valve failure that prevents the pool from draining unintentionally
- › Electronic rain detector that allows operation during winter
- › Circulation pump protection to prevent dry running
- › Compact kit with five sensors for skimmer pools (optional)
- › Plug & Play system for automatic operation with no programming required
- › Level sensors in ASI316 stainless steel
- › LED system for status indication
- › Side on/off button

Specifications

Power Supply: 220/240Vac 50/60Hz

Level Sensors: 5 units ASI316

Room Temperature Tested at 50°C

Warranty: 2 Years

Solenoid Valve (Optional)

Valve: 1,0"

Pressure: 1 - 10 Bar

Debit: 0,05 - 9 m³/h

L140mm X A180mm X P 65mm
