# INTRODUCTION

---

## SMART WATER TREATMENT

Bright Blue is a rapidly growing company with a network of over 200 national and international distributors and retailers, and actively contributes to improving the quality of water of pools and to a greener and environmentally friendly society

## COMPANY

---

Since its foundation in 2008 we are proud to be the largest Portuguese manufacturer of automatic equipment for the treatment of swimming pool's water and a leading brand with respect to quality, innovation, durability and customer service.

## SUPERIOR QUALITY

---

The components used in the manufacture of Bright Blue equipment are carefully chosen from the best suppliers worldwide, always focusing on the European and American technology and providers. All models are 100% manufactured in Portugal and subject to rigorous stress testing and rigorous quality control by the technical team of Bright Blue. All machines are tested in the factory in real working situation for a period of 48 hours before being sent to its customers, thus ensuring a proper functioning of all equipment provided. In Bright Blue quality is a point of honour!

## INNOVATION

---

It is part of Bright Blue genesis the creation of innovative equipment, with the latest technology and unique features. We were the first to automate the treatment depending on the water temperature, pioneers in the introduction of remote control equipment and the world's first manufacturer to present a fresh water electrolysis system.

## DURABILITY

---

All Bright Blue models are conceived to grant a lifetime of 15 to 20 years and the wearable components, such as the electrolytic cells, are prepared to guarantee a considerable durability, longer than the other models available in the market.

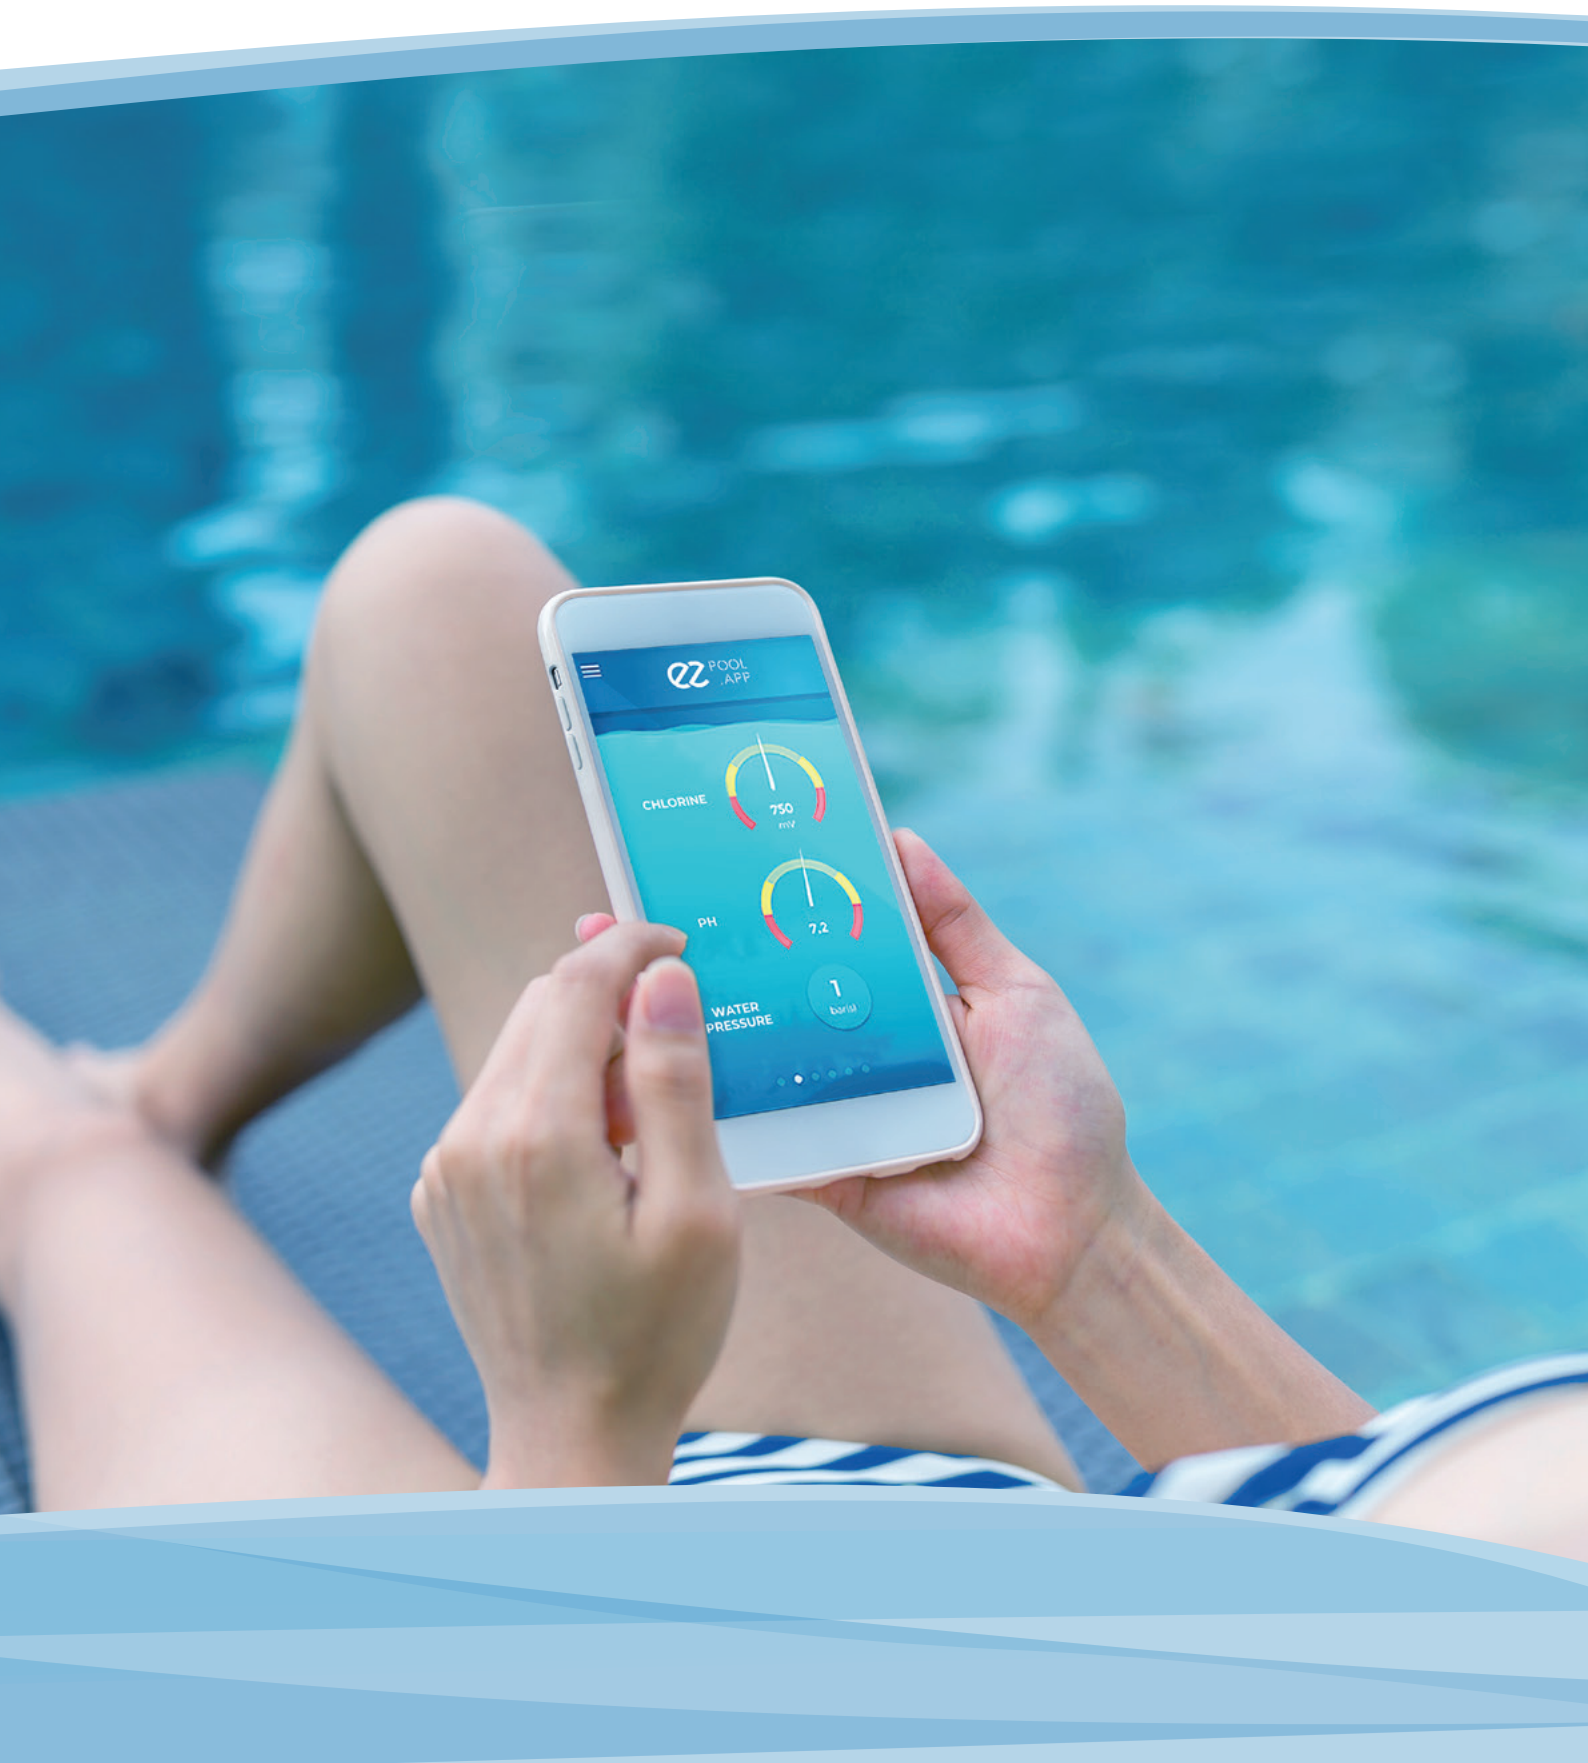

## AFTERSALES SUPPORT

---

Bright Blue has a highly specialised technical team, with a high level of expertise, and a fast, effective and economic response. All our products are supplied with generous warranties.

## ➤ REMOTE CONTROL - WiFi

CONNECT  
SIMPLIFY  
ECONOMIZE

Innovative System that allows you to monitor and control any type of pool and it's installed equipment, regardless of brand, type or model. 100% compatible with equipments already installed.

#### ENERGY CONTROL

Control your consumption and save energy.

#### REMOTE UPDATE

Take advantage of automatic updates.

#### TECNOLOGICAL CONTROL

Control all your engine room devices from a single mobile application.

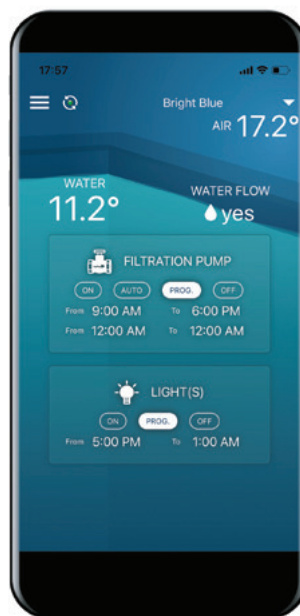

#### ECO FRIENDLY

Controls and reduces the environmental impact of your pool.

#### TOP QUALITY SERVICE

Benefit from a personalized monitoring.

Click here to know  
the concept

### PACK EZ1 INCLUDES:

- A remote control box with WIFI connection
- One power cable
- One air temperature probe
- One water temperature probe
- One flow detector

### FUNCTIONALITIES

- WIFI Connection
- Air and water temperature information
- Water flow information
- Filtration pump management
- Management of your pool's lighting
- Possibility of manage several pools

L 142mm X A 190mm X P 70mm

the features

L 142mm X A 190mm X P 70mm

Click here to know  
the concept

### PACK EZ2 INCLUDES:

- One EZ2 box to connect to EZ1
- ONE Redox Probe
- One pH probe
- One pressure sensor

### FUNCTIONALITIES

- Control of chlorine level, pH and water pressure
- Management of filtration pump in automatic mode
- Water treatment equipment management
- Checking the opening or closing of the pool cover
- 3 dry contacts to control:
  - Heat pump
  - Garden lighting
  - Pool Robot
  - Water fall
  - Counter-current

# > SALT WATER ELECTROLYSIS

## WATER WELL TREATED

# ➤ BENEFITS AND EDGES

---

## HEALTH AND WELNESS

---

- Avoids the use and handling of harmful chemicals
- Salt concentration lower than a tear
- Does not manage the hair, skin and skin suits
- Ends with skin and eye irritation
- Softer and more comfortable water
- Easy to use, just add salt in the pool
- Eliminates chlorine smell

## SAFETY

---

- No electrical hazard to users
- Operates at a very low voltages less than 13v
- Prevents handling and storage of toxic and corrosive chemicals
- Avoid chlorine excesses or deficits in the water

## SUSTAINABILITY AND SAVINGS

---

- Total elimination of chemical consumption (except pH minus)
- Allows for a better water conservation reducing its consumption
- Simpler, faster and more economic maintenance of the pool
- Closed-loop process that minimizes the consumption of salt
- State-of-the-art technology with reduced power consumption
- Healthier and environmentally friendly system

# TECHNICAL CHARACTERISTICS

## SALT ELECTROLYSIS

PRODUCT DESCRIPTION	PLUMA	COLIBRI	BIRDIE
Electronic Enclosure	Polycarbonate	Polycarbonate	Fiberglass
Display	Digital	Digital	Digital
Production Control	20 Levels	20 Levels	100 Levels
Electrolysis time counter	✓	✓	✓
Input connection to external controller	✓	✓	✓
On-off button	✓	✓	✓
Cover detector	✓	✓	✓
Inversion polarity regulation / self cleaning electrolysis cell	✓	✓	✓
Water temperature indication °C	✓	✓	✓
Automatic adjustment of chlorine output according to water °C	✓	✓	✓
Automatic pH control	Optional	Optional	✓
Automatic filtering pump control			✓
Swimming pool lights control			✓
Heat pump control			✓
Electrical switchboard (timer + contactor + thermal relay)			✓
Automatic water level control			Optional
Automatic measurement of chlorine level in the pool (ORP/Redox)	Optional	Optional	Optional
Low salt alarm	✓	✓	✓

### AUTOMATIC EQUIPMENT STANDBY

Caused by lack of water in the cell	✓	✓	✓
Caused by gas accumulation in the cell	✓	✓	✓
Caused by power overload	✓	✓	✓
Caused by overheating	✓	✓	✓
Caused by water temperature below 12° C	✓	✓	✓
Caused by the thermal relay trip			✓

### TECHNICAL CHARACTERISTICS

Warranty	2 Years	5 years - electronics / 4 years - cell	
Equipment power	220-240Vac 50-60Hz		
Estimated lifetime of electrolysis cell	10.500 h	15.000 h	12.500 h
Salinity range	Minimum 3g/l - (seawater) 35g/l		5g/l
Production capacity	10 to 30 g/h	10 to 40 g/h	

## > INSTALLATION DIAGRAM

INSTALLED IN LINE WITH ANY TRADITIONAL FILTERING SYSTEM AND COMPATIBLE WITH ALL TYPES OF SWIMMING POOLS

# » CELL, ENCLOSURE AND PCB BOARDS

SALT ELECTROLYSIS

## HIGH RESISTANCE ELECTRONICS ENCLOSURE

**NON-HYGROSCOPIC MATERIAL** Minimal absorption of water

**AUTO EXTINGUISHABLE** Flame retardant material and halogen free

**LIGHT** Easy to handle & "user friendly"

**FAST AND MODULAR ASSEMBLY** Plug & Play no special tools needed

**RESISTANT TO HARSH CLIMATES** Humid environments and high temperatures

**HIGH IMPACT STRENGTH** Supports up to 150 kg in weight

SINGLE BUTTON CONTROL • POLYCARBONATE ENCLOSURE • LCD FRONT PANEL • SIMPLE AND INTUITIVE MENU

## ELECTROLYSIS CELL

1 High efficiency cell 1A=2 g/h

2 Transparent cup for better visibility of the electrodes.  
Resistant pressure 5 Bar.

3 Terminal protective cover to prevent oxidation

4 PVC locknut easy to handle

5 Full titanium plates without welding points

6 Long life titanium electrodes

BETTER HANDLING • BETTER PERFORMANCE • LONGER LIFE • MINOR SIZE • BETTER DESIGN

## PCB BOARD

**DESIGN** 100% designed and engineered at Bright Blue

**ELECTRICAL ROBUSTNESS** Tested for use in industrial environment - 4 KV / 100 kHz  
(according to IEC 61000-4-4 and EN 61000-4-4)

**PHYSICAL ROBUSTNESS** Double protection against humidity and corrosion

# ➤ PRIVATE POOL

Salt water chlorinator with automatic production depending on chlorine reading (ORP) and water temperature. Digital display and highly resistant polycarbonate enclosure. Production capacities from 10 to 30 g/h. Ideal for private pools up to 160 m³.

- › Latest generation power supply, with higher performance, low electrical consumption and fully waterproof (IP67 protection)
- › Works with any kind of salinity from 3 g/l to sea water (35g/L)
- › A single command button and side switch to turn on and off
- › New ultra-efficient electrolysis cell with 10.500h life span
- › Large LCD display with simple and intuitive menu
- › Temperature probe with automatic hibernation function
- › Electronic flow and coverage detector
- › Lightweight, compact and easy to install system

### Specifications

**Power Supply:** 220/240VAC 50/60Hz  
**Cell:** Self cleaning monopoly MMO coating  
**Cell Assembly:** Vertical and horizontal  
**Cell Connections:** ø63mm or ø50 mm (reduction rings included)  
**Cell lifetime:** 10.500h\*  
**Salinity Range:** 3 to 35 g/l (sea water)  
**Water Flow:** From 5 m³/h to 30 m³/h  
**Water Pressure:** Tested at 5 Bar  
**Water Temperature Range:** From 12°C to 40°C  
**Room Temperature:** Tested at 50°C  
**Reverse Polarity:** 3h to 8h  
**Cooling:** Forced with ventilation  
**Warranty:** 2 Years

CODE	100002163	MODEL	Colibri CC 40	POOL WITH VOLUME UP TO M3	210

Fresh water chlorinator with digital display, temperature sensor and highly resistant polycarbonate enclosure. Ideal for indoor pools with metallic elements affected by salt.

- › Works with a concentration of mineral salts between 0.5 and 1.5 g/l
- › Switching power supply for less heat and higher performance
- › Self cleaning titanium monopoly cell with high production efficiency
- › Central command button and on-off side switch
- › Standby input contact for external controllers
- › LCD front panel with automatic wintering function
- › Temperature sensor with automatic wintering function
- › Electronic cover and flow detector
- › Adjustable sanitizer output from 0% to 100% in 5% intervals
- › Electronic electrolysis time meter
- › More compact, lighter and easier to install

# ➤ PUBLIC POOL

## STANDARD EQUIPMENT

For pools with large volume, Bright Blue proposes models COLIBRI PRO and BIRDIE PRO that come equipped with electrolysis cells specially conceived for commercial pools, with production capacities from 60 g/h to 60 g/h

## TAILOR MADE SOLUTIONS

We can also offer our tailor-made solutions to meet the needs of any large pool, such as hotels, sports clubs, water parks, public pools and ornamental fountains.

If you have a specific need that is not part of our standard solutions do not hesitate to contact us

## EQUIPMENT SELECTION GUIDE FOR COMMERCIAL POOL

POOL VOLUME m <sup>3</sup>	100	200	300	400	500

500 users/day					tailor made

Advanced salt water chlorinator with digital display, temperature sensor and highly resistant fiberglass enclosure. Production capacities from 60 to 160 g/h, ideal for large volume commercial pools.

- > Self cleaning titanium monopolar cell with self-cleaning and production efficiency 35% higher than bipolar cells
- > Switching power supply for less heat and higher performance
- > Central command button and on-off side switch
- > Standby input contact for external controllers
- > LCD front panel with automatic wintering function
- > Temperature sensor with automatic wintering function
- > Electronic cover and flow detector
- > Cells with the longest life available on the market
- > Adjustable sanitizer output from 0% to 100% in 5% intervals
- > Electronic electrolysis time meter
- > More compact, lighter and easier to install

### | Specifications |

# ➤ AUTOMATION AND DOSAGE

Digital pH measuring and regulating system, for private, public and commercial pools.

- › Simple and intuitive programming menu (password protected)
- › Electronic timeout alarm to avoid pH overdosing
- › ENCODER system with easy friendly software interface
- › Auto calibration with 2 buffers or DPD
- › Very broad measuring range (0-13.8)
- › Highly accurate pH scale  $\pm 0.1$
- › Progressive pH injection (acid or base)
- › Long life pH electrode

| [Specifications](#) |

**Power Supply:** 220/240Vac 50/60Hz

CODE 100001765	MODEL SANUS COMPACT	PRESSURE FLOW l/h - Bar 1.5-2.5
CODE 100002273	DISCRIPTION Boia Tanque pH com Tubo de Aspiração	

Automatic water level regulator comprising a head box, five level sensors and a solenoid valve.  
Suitable for all type of pools: skimmer, overflow or transshipment.

- > Check valve failure detector to prevent involuntary pool emptying
- > Rain detector that allows system to be used during winter period
- > Circulation pump protector to prevent dry work
- > Compact four sensors kit for skimmer swimming pools (optional)
- > Plug & Play System for automatic operation without programming
- > Sainless steel ASI316 level sensors
- > LED lights status indicator
- > On-off side switch

### Redox potential measurement and regulation (ORP)

#### POOLUX RH

<b>CODE</b> 100001315	<b>MODEL</b> POOLUX RH	<b>PRESSURE FLOW l/h Bar</b> 4.5-2
-----------------------	------------------------	------------------------------------

Peristaltic dosing pump for measurement and regulation of redox potential (ORP).  
Proportional dosage with measuring scale from 0 mV to 1000mV visible in a digital display.  
Includes level sensor. Digital signal input.

#### VMS PO

<b>CODE</b> 100001316	<b>MODEL</b> VMS PO 07.06	<b>PRESSURE FLOW l/h Bar</b> 6-7
-----------------------	---------------------------	----------------------------------

Electromagnetic dosing pump for measurement and regulation of redox potential (ORP).  
Proportional dosage with measuring scale from 0 mV to 100 mV visible in a digital display.  
Includes level sensor. Pump body and hydraulic parts in PVDF.

#### POOLUX EV

<b>CODE</b> 100001317	<b>MODEL</b> POOLUX EV	230vac 3A
-----------------------	------------------------	-----------

System to read and adjust the redox potential (ORP) with a scale from 0mV to 1000mV visible in a digital display. Schuko type output to connect a salt chlorinator or a chlorine tablet feeder.

#### FMS EV

100001318	FMS EV	<b>OUTPUT EV</b> 230Vac 10A
-----------	--------	-----------------------------

System to read and adjust the redox potential (ORP) with a scale from 0mV to 1000mV visible in a digital display. Schuko type output to connect a salt chlorinator or a chlorine tablet feeder.

## Anti-algae, flocculant and active oxygen dispensers

### VMS EN Anti-algae

<b>CODE</b> 100001319	<b>MODEL</b> VMS EN 07.06	<b>PRESSURE FLOW l/h Bar</b> 6-7
-----------------------	---------------------------	----------------------------------

Electromagnetic dosing pump for injection of algaecide. Weekly timer with shock dosing program. Dosage regulation in cm<sup>3</sup>. Includes level sensor. Pump body and hydraulic parts in PVDF.

### VCOG - VCLG Flocculant

<b>CODE</b> 100001320	<b>MODEL</b> VCOG 05.03	<b>PRESSURE FLOW l/h Bar</b> 3-5
<b>CODE</b> 100001321	<b>MODEL</b> VCLG 05.03	<b>PRESSURE FLOW l/h Bar</b> 3-5

Electromagnetic dosing pump for injection of flocculant, with double scale of regulation in g/day (24h). From 0 to 300 g/day or 0 to 3000 g/day. Pump body and hydraulic parts in PVDF. Includes a level probe.

### VMSA Active Oxygen

<b>CODE</b> 100001322	<b>MODEL</b> VMSA 07.06	<b>PRESSURE FLOW l/h Bar</b> 6-7
-----------------------	-------------------------	----------------------------------

Electromagnetic dosing pump for injection of flocculant, with double scale of regulation in g/day (24h). From 0 to 300 g/day or 0 to 3000 g/day. Pump body and hydraulic parts in PVDF. Includes a level probe.

### CERES Flocculant

<b>CODE</b> 100001323	<b>MODEL</b> CERES Flocculante	<b>PRESSURE FLOW l/h Bar</b> 0.13-1.5
-----------------------	--------------------------------	---------------------------------------

Low flow peristaltic pump for flocculant dosage. Flow rate adjustable from 0.01 to 0.13 l/h. Level probe to stop the pump in case of lack of product.

# > AUTOMATIC CHEMICAL DOSERS

## Regulation and Multiple Dosing

### DOUS

CODE 100001329	MODEL DOUS	PRESSURE FLOW l/h Bar 3-2
----------------	------------	---------------------------

Regulator with digital display and two peristaltic dosing pumps for proportional injection of pH (acid or base) and chlorine. Redox potential reading. Includes stand-by input, level probe and alarm output.

### WDPH CL ou RH

CODE 100001324	MODEL WDPHCL 07.06	PRESSURE FLOW l/h Bar 6-7
CODE 100001325	MODEL WDPHRH 07.06	PRESSURE FLOW l/h Bar 6-7

Regulator with digital display and two dosing pumps for proportional injection of pH (acid or base) and chlorine. Free chlorine measurement (WDPHCL) or redox potential (WDPHRH). ENCODER system for easy programming. Includes level sensor, alarm output and RS485 output. Pump body and hydraulic parts in PVDF.

WDPHCL scale pH (0-14) chlorine (0-10ppm)

WDPHRH scale pH (0-14) chlorine (0-1000mV)

### WDPH CA ou CF

CODE 100001326	MODEL WDPHCA 07.06	PRESSURE FLOW l/h Bar 6-7
CODE 100001327	MODEL WDPHCF 07.06	PRESSURE FLOW l/h Bar 6-7

Regulator with digital display and two proportional dosing pumps for pH and anti-algae (WDPHCA) or pH and flocculant (WDPHCF). Proportional injection and on/off for dosing pH +/- Weekly timer anti-algae dosage or constant and slow for the flocculant. ENCODER system for easy programming. 230Vac output to connect a tablets dispenser or a salt chlorinator. Includes level sensor, alarm output and RS485 output. Pump body and hydraulic parts in PVDF. Optional: free potential output contact.

WDPHCA- Anti-algae scale from 0 to 14 pH and 0 to 10mg/Cl2

WDPHCF-Flocculant scale from 0 to 14pH and 0 to 10mg/Cl2

## WDPHOS

<b>CODE</b> 100001328	<b>MODEL</b> WDPHOS	<b>PRESSURE FLOW l/h Bar</b> 6-7
-----------------------	---------------------	----------------------------------

Regulator with digital display and two dosing pumps for proportional injection of pH (acid or base) and active oxygen. Temperature control with probe included. Adjustable dosage with daily or weekly timer. ENCODER system for easy programming. RS485 output. Pump body and hydraulic parts in PVDF.

**Data to be programmed:** Quantity per m3 at 25°C | Quantity per m3 at 30°C and pool volume.  
H scale [0 to 14]

## DOS-UV

<b>CODE</b> 100001330	<b>MODEL</b> DOS-UV 8	<b>PRESSURE FLOW l/h Bar</b> 5
<b>CODE</b> 100001331	<b>MODEL</b> DOS-UV15	<b>PRESSURE FLOW l/h Bar</b> 15
<b>CODE</b> 100001332	<b>MODEL</b> DOS-UV22	<b>PRESSURE FLOW l/h Bar</b> 22

UVC ultraviolet radiation system to sterilize and destroy living cells present in water, without modifying the physical and chemical characteristics. No residual effect. Compact, easily removable, with 9000h of lamps lifetime. The DOS-UV system is dimensioned according to the flow of the circulation pump so that the combination of contact time in the reactor plus the power of the lamp can grant a germicidal dose expressed in mJ/cm2, capable of eradicate 99,9% of the living cells present in the water.

## Digital Instruments Mono and Multi-parameter

### LDS CL SERIES

Encoder system for easy programming. Input for flow control. Permanent of data (without battery) with system log visible in a display. Diagnosis probe menu. Temperature measurement and automatic compensation with PT100 probe included. Free potential input. Alarms of probe damage (with probe check-up), maximum dose limit, threshold level and flow. Possibility to program delays in dosage (maximum 60 minutes). Dosing system on/off, proportional PWM and fixed PWM. Dosage can be manual or automatic.

#### PACK LDS CL ECL12

**CODE** 100001634

**MODEL** LDS CL ECL12

**AMPEROMETRIC CHLORINE PROBE** Open

**INCLUDES** Controller LDSCL, Chlorine Probe ECL12, Proximity sensor SERP and Probe Filter NFIL

#### PACK LDS CL ECL35

**CODE** 100001635

**MODEL** LDS CL ECL35

**AMPEROMETRIC CHLORINE PROBE** of membrane

**INCLUDES** Controller LDSCL, Chlorine Probe ECL35/10, Probe holder PEF1 (with room for a pH Probe) Proximity sensor SERP and Probe Filter NFIL

## Pre-assembled Control and Dosage Panels

### Panel DOUS

CODE 100001636

MODEL PANEL DOUS

PRESSURE FLOW l/h Bar 3-2

Proportional regulation of pH and redox with peristaltic pumps. Includes:

- › Controller DOUS 02 03 (3l/h)
- › Filter NFIL
- › pH Probe EPHS
- › Redox Probe ERHS
- › Probe holder NPED4

### Panel VMS PO

CODE 100001637

MODEL PANEL VMS PO 07.06

PRESSURE FLOW l/h Bar 6-7

Proportional control of pH and redox with electromagnetic pumps. Includes:

- › Dosing pump VMS PO 07 06 (6 l/h)
- › Dosing pump VMS PO 07 06 (6l/h)
- › Filter NFIL
- › pH Probe EPHS
- › Redox Probe ERHS
- › Probe holder NPED4

## > AUTOMATION AND DOSAGE

### Panel WDPHRH

CODE 100001638	MODEL PAINEL WDPHRH 07.06	PRESSURE FLOW l/h Bar 6-7
----------------	---------------------------	---------------------------

Proportional control of pH and redox with electromagnetic pumps. Includes:

- > Controller WDPHRH 07 06 (6 l/h)
- > Filter NFIL
- > pH Probe EPHS
- > Redox Probe ERHS
- > Probe holder NPED4

### Panel WDPHCL/6

CODE 100001639	MODEL PAINEL WDPHCL/6	PRESSURE FLOW l/h Bar 6-7
----------------	-----------------------	---------------------------

Proportional regulation of pH and chlorine with electromagnetic pumps. Includes

- > Controller WDPHCL 07 06 (6l/h)
- > Filter NFIL
- > SEPR Proximity sensor
- > pH Probe EPHS
- > ECL6/P open amperometric chlorine probe

### Panel WDPHCL/3

CODE 100001640	MODEL PAINEL WDPHCL/3	PRESSURE FLOW l/h Bar 6-7
----------------	-----------------------	---------------------------

Also available with closed amperometric chlorine probe ECL3S/10 and probe holder PEF1

ECL3S/10

PEF1

## Pre-assembled Control and Dosage panels

### Panel LDPHRH

CODE	100001641	MODEL	PAINEL LDPHRH	PRESSURE FLOW l/h Bar	10-3
------	-----------	-------	---------------	-----------------------	------

Proportional control of pH and redox with electromagnetic pumps. Includes:

- › Controller LDPHRH
- › Dosing pump VMS MF 03 10 (10 l/h)
- › Dosing pump VMS MF 03 10 (10 l/h)
- › NFIL Filter
- › pH Probe EPHS
- › Redox Probe ERHS
- › Probe holder NPED4

### Panel LDPHCL/6

CODE	100001642	MODEL	PAINEL LDPHCL/6	PRESSURE FLOW l/h Bar	10-3
------	-----------	-------	-----------------	-----------------------	------

Proportional control of pH and chlorine with electromagnetic pumps. Includes

- › Controller LDPHCL
- › Dosing pump VMS MF 03 10 (10l/h)
- › Dosing pump VMS MF 03 10 (10l/h)
- › NFIL Filter
- › pH Probe EPHS
- › Proximity sensor SEPR
- › Temperature probe ETEPT
- › Open amperometric chlorine probe ECL6/P

### Panel LDPHCL/3

CODE	100001643	MODEL	PAINEL LDPHCL/3	PRESSURE FLOW l/h Bar	10-3
------	-----------	-------	-----------------	-----------------------	------

Also available with closed amperometric chlorine probe ECL3S/10 and probe holder PEF1

ECL3S/10

PEF1

### Panel LDPHBR

CODE	100001644	MODEL	PAINEL LDPHBR	PRESSURE FLOW l/h Bar	10-3
------	-----------	-------	---------------	-----------------------	------

Also available with bromine probe EBR 1/20 and probe holder PEF1

# ➤ PARTS AND ACCESSORIES

## > PARTS AND ACCESSORIES

### OPTIONAL KITS

#### KIT ORP COLIBRI/PLUMA RX

#100001724

Redox system for reading and regulating the level of chlorine in the water, compatible with colibri and Pluma RX models.

#### ORP PLUG-IN KIT TO COLIBRI/PLUMA CC

#100002176

Redox system for reading and regulating the level of chlorine in the water, compatible with colibri and Pluma CC models.

#### TEMPERATURE KIT

#100001783

Probe for water temperature measurement and automatic production regulation. Allows automatic winterization of the equipment. Compatible with Colibri and Pluma RX models.

#### GROUND KIT

#100001586

Long-life earth electrode with plug.

### PROBES

#### Ph PROBE

#100000418

Combined pH electrode for pressure up to 7 bar/70°C. Body in epoxy.

#### ORP PROBE

#100001698

Combined redox electrode for pressure up to 7 bar/70°C. Body in epoxy.

#### CONDUCTIVITY PROBE

#100000266

Combined conductivity electrode for pressure up to 7 bar/70°C. Body in epoxy.

#### AIR TEMPERATURE PROBE

#100001895

Air temperature probe to EZ models

## WATER TEMPERATURE PROBE WITHOUT JACK

#100001894

Water temperature probe to Colibri, Pluma and EZ models

## WATER TEMPERATURE PROBE WITH JACK

#100001716

Water temperature probe with jack to RX models

## FLOW SENSOR

#100001885

Sensor for water flow detection, compatible with EZ models

## PRESSURE SENSOR

#100001906

Sensor for measuring sand filter pressure, compatible with EZ models

## LEVEL PROBE FOR SURGE TANK

#100000408

Level probe for surge tank

## SPECIAL LEVEL PROBES FOR SKIMMERS

#100000713

Water level probe for use in skimmers

## PH ACCESSORIES

### PERISTALTIC PH PUMP 4.5L - 2 BAR

#100000759

pH injection pump

### RUBBER PERISTALTIC PUMP

#100000836

Replacement rubber for pH pump

## > PARTS AND ACCESSORIES

### PERISTALTIC PUMP ROTOR

#100002228

Rotor for pH pump 1.5 l/h (5mm)

#100002305

Rotor for pH pump 4.5 l/h (4mm)

### SOUND-HOLDER

#100000272

Fixation part for pH, ORP and Conductivity probes

### PERISTALTIC PUMP INJECTOR

#100001160

PVDF non-return valve for pH injection

### PH INJECTION KIT

#100002286

Includes: suction valve, injection valve, flexible and rigid pipe

### LEVEL PROBE FOR PH TANK - 45 CM

#100000991

Two-contact cable (for Birdie models)

#100002273

Cable with BNC connector (for Sanus Compact)

## CELL ACCESSORIES

### CELL CUP

#100001257

### CELL NUT

#100001258

## PROTECTIVE COVER CELLS CABLES

#100001261

## CELL BUFFER RING

#100001260

## O'RING CELL

#100001356

## 63X50 REDUCTION RING

#100000351

## VARIOUS

## ELECTROVALVE 1.0

#100000709

## FIXING KIT

#100002095
